

# Garland LSZH Category cable range

Low Smoke Zero Halogen (LSZH) cabling is the safest choice for plenum use and applications where smoke is likely to both build up and come into contact with people.

There has been a significant increase in demand for LSZH cables in recent months, driven by concerns for safety and the environment in the event of fire.

We listened, and now we deliver. In line with our commitment to sustainability and reducing impacts on the earth, we are pleased to now offer LSZH Category LAN cables as an extension to our Green Star rated Pro Series range.

## CAT 3 Features

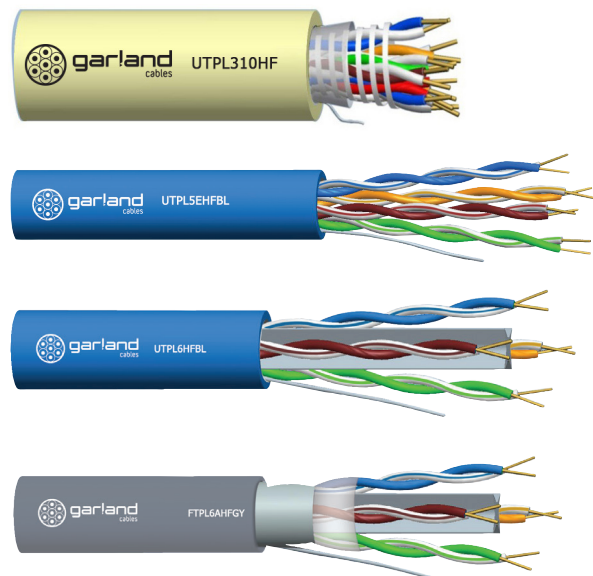

- > Suitable for 10BaseT (10 Mbit Ethernet) applications
- > Polyolefin insulated
- > Available in 10, 20, 25, 50 and 100 pair

## CAT 5e Features

- > Suitable for up to 100 BaseT (100Mbit Ethernet) applications
- > Polyethylene insulated
- > Available in 4 Pair UTP

## Ordering Information

Part Number	Description
UTPL310HF	Category 3 LSZH Telephone and LAN cable
UTPL5EHF	Category 5e LSZH LAN cable
UTPL6HF	Category 6 LSZH LAN Cable
FTPL6AHF	Category 6A Screened LSZH LAN cable

## CAT 6 Features

- > Used for 1000BaseT applications (1 Gigabit Ethernet)
- > Polyethylene insulated
- > Available in 4 Pair UTP

## CAT 6A Features

- > Used for 10BaseT applications (10 Gigabit Ethernet)
- > Overall aluminium laminate screen
- > Available in twinned 4 pair

Industrial / Power / Data / Security / Fibre

With Garland, you are always well connected.
